

BE THE MASTER OF MOTOR CONTROL

➤ *Parts available to help your customers maintain, repair and increase the usable life of their Motor Control Infrastructure.*

MOTORS AND THEIR CONTROLS UNDERGO A LOT OF WEAR AND TEAR – AND THAT MEANS A LOT OF COMPONENT BREAKDOWNS.

Dealer Source stocks the replacement parts you need to help customers repair and maintain their motor control products. Helping them replace parts instead of complete units saves them time and money. It gets them back up and running faster, and it strengthens your position as a valuable resource.

Come to Dealer Source for the replacement parts that make you the go-to distributor to help with motor control products from **Eaton, GE, Siemens, SQD** and more. In-stock parts include:

- Enclosed Motor Starters
- Open Motor Starters
- Manual Starters & Switches
- Definite Purpose Contactors
- IECs Contactors & Starters
- Lighting Contactors – Up to 400A

When your customers think motors and control, be sure they think about you first. Call **866.811.9023** or email sales@dealersourceinc.com for the control products you need today. We're the real deal for distribution.
